The Funding Spectrum

Innovation Vouchers

- Vouchers worth 5000 Euro
- Certain limits on number of vouchers available to a given company. A company is entitled to 2 vouchers and 1 co-funded
- CeADAR executes a defined portion of work for you
- Companies own all IP produced
- Often useful as a door-opening project

Disruptive Technology Innovation Fund

- Annual programme funding for large highly disruptive innovative projects
- Typical funding ranges from 1,500,000 to 10,000,000 euro between partners
- Minimal Consortium, 3 partners with at least one SME and one other enterprise.
- Supports:
 - Enterprises up to 50% of eligible costs
 - RPOs get 100% of eligible costs
- More Complex IP Ownership Model
- Annual Call with a deadline in September

**An Roinn Gnó,
Fiontar agus Nuálaíochta**
Department of Business,
Enterprise and Innovation

Contract Research

- Companies pay directly for CeADAR to execute research
- Very useful when specialist skills and knowledge needed for a given project
- Companies own IP and can negotiate staged project execution
- Very fast to execute relative to other mechanisms

The Funding Challenge - so many questions!

- What funding streams are applicable to me?
- How much is the funding level?
- Do I control the IP?
- How long does it take to get projects off the ground?
- Are all staff of a project based onsite with me?

Funding Levels, Duration, and IP Rights

	Contract Research	Innovation Vouchers/Co-Funded Innovation Vouchers	Disruptive Technology Innovation Fund	Innovation Partnerships	Horizon SME Instrument - Fast Track to Innovation	CareerFit Programme	Graduate Ready Work Programme
